

Laurens Solina

Laurens Solina Horizontal

An unconventional subtle heating unit in a single vertical or double horizontal design. Horizontal model allows for a wall or floor installation using small stands. The oval shape also makes it possible to store bath towels on/in the unit to ensure they stay warm.

Material	steel pipes Ø 60 mm
Connection threads	2xG1/2"
Testing overpressure	1,3 MPa
Max. operating overpressure	1,0 MPa
Max. operating temperature	120°C
